

## 12U FTTx CABINETS

### DESCRIPTION

The MICROLINK offers a range of 19" 150mm & 300 wall mount and concealed enclosures designed for installation of both cabling and FTTx equipment and is ideal for use across a range of applications including local area networking (LAN) cabling and FTTx hardware, and the housing of security and audio and visual equipment.

Each cabinet is designed with strength, ease of use and aesthetics in mind. Features such as quick release doors, fully adjustable front and rear profiles and above average access through the either the top or base of the cabinet make the product extremely flexible and easy to install cables and equipment into a full range of MICROLINK accessories are available to complete cable.
