

## CAT8 S/FTP PATCH CORD

### DESCRIPTION

MICROLINK CAT8 Network Patch Cable is the cost-effective solution for indoor data center applications, supporting up to 25/40GBase-T and 2000MHz within 30 meters of cable. And it is fully backward compatible with all the previous categories.

CAT8 patch cables conductor apply Oxygen-free Copper with high electrical conductivity and low signal transmission attenuation. The sheath material is new environmentally friendly material PVC CMX, which is durable, flame-retardant, resistant to bending.

### FEATURES AND BENEFITS

- ✓ Protected by PVC CMX jacket
- ✓ Stranded Oxygen-free Copper
- ✓ Rated for 2000MHz communications
- ✓ Designed for 25/40GBase-T Ethernet
- ✓ 28AWG 4-pair precision twisted cable
- ✓ Molded strain relief with snagless design
- ✓ RJ45 plugs with 50-micron gold-plated connectors
- ✓ A variety of lengths for all CAT8 SFTP cables
- ✓ RoHS, CE compliancy status
- ✓ 25 Year system warranty

### APPLICATION

- ✓ Rated for any 10GBase-T Ethernet
- ✓ Perfect for data center and SMB applications.
- ✓ Ideal for switches, servers, patch panels, or other equipment

### STANDARDS

RoHS Compliant  
ISO/IEC 11801-1:2017  
ANSI/TIA/EIA-568-C.2  
IEC60603-7
